

Four routes. Twenty-three schools. Three days exploring English language education across Ireland — with hosted meals, cultural excursions, and direct access to school staff and facilities before the conference begins.

These pre-conference familiarisation trips give education agents the chance to experience our member schools firsthand, building the knowledge and relationships that support confident recommendations to prospective students.

Each route covers a distinct region of Ireland, visiting schools selected to represent the breadth and quality of EEI-accredited provision. Accommodation, all meals, and cultural activities throughout are fully covered.
